COMMUNITY SPOTLIGHT:

A huge shoutout to our incredible Brand Ambassador, Jameel Rakim, for proudly representing Wildog at the 4x4 Nation Hill Climb Challenge 2026.

Jameel's energy, dedication, competitive spirit, and passion for 4x4 made him a standout presence throughout the event — exactly the kind of ambassador we're proud to have behind the Wildog name.

It was great connecting with everyone who visited the Wildog stand, met the team, and checked out our products. We're proud to be part of a community that keeps pushing boundaries and going beyond the beaten track.

TRAIL TIP/TECH TALK:

Optimise Your Tyre Pressure for Cold Conditions

Cold temperatures can cause tyre pressures to drop, so always check your pressures when your tyres are cold. For hard-packed or frozen dirt tracks, slightly reducing tyre pressure can help improve tread contact, traction, and ride comfort.

Always return to the recommended pressure before heading back onto paved roads.

PRODUCT SPOTLIGHT:

The **Wildog Hunter Front Replacement Bumper** for the **Isuzu Gen 7 Facelift** is built to complement its bold new look while adding the protection and functionality needed for off-road adventures.

With heavy-duty construction, a durable finish, and a rugged design, the Hunter gives your Isuzu a distinctive Wildog look while adding practical front-end protection.

Complete the setup with matching Rock Sliders, Bash Plate, Rear Replacement Bumper, and more.

RECIPES FOR THE CAMPSITE:

PORK CHOPS WITH DELICIOUS SAUCE

A simple, hearty campsite favourite that's easy to prepare and packed with flavour.

Ingredients:

6 Large pork chops

½ Cup chutney

1 Tsp garlic

1 Cup boiling water

½ Cup mayonnaise

½ Cup tomato sauce

1 Packet brown onion soup powder

Method

Fry the pork chops until golden brown on both sides. Mix all the sauce ingredients together and pour over the chops in an ovenproof dish. Cover with foil and bake at 180°C for 1 hour, or until tender.

Perfect for a relaxed evening around the campfire!

SPRING TRAILS AWAIT: PREPPING YOUR 4X4 FOR WARMER WEATHER

As the winter chill thaws and warmer days return, it's time to shake off the frost and get your rig ready for spring wheeling. Shifting seasons mean fresh trails, but spring tracks often bring hidden mud holes, washed-out ruts, and soft shoulders from recent rains.

ESSENTIAL SPRING PREP CHECKLIST UNDERBODY WASH & INSPECTION.

Inspect your bash plates, diff guards, and lower control arm protectors for any loose mounting hardware.

FLUID CHECK:

Check your engine oil, transmission fluid, and differentials. If you tackled deep water or mud over the winter, check diff breathers and ensure no moisture has contaminated the fluids.

TIRE & SUSPENSION:

Inspect sidewalls for gouges, verify tread depth, and check your shock absorbers for leaks or worn bushings before airing down on the trail.

THE WILDOG CUSTOM AND HANDMADE WILD DOGS

MORE THAN JUST A TOY — IT'S A PURPOSE.

Meet the Wilddog Custom Handmade Wild Dogs, lovingly crocheted by 60 incredible women from rural communities near the Kruger National Park.

Every Wild Dog is handmade with care, with every stitch helping create opportunities, empower women, support local communities, and celebrate traditional craftsmanship.

*Handmade with purpose.
Made to make a difference.*

4X4 JOKE OF THE MONTH:

People: "Why do you need a 4x4?"

Me: "I don't."

People: "Then why did you buy one?"

Me: "For emergencies."

People: "What emergencies?"

Me: "Mostly the ones I create by choosing the road less travelled."

MEET OUR SALES TEAM

Meet Braam, one of the friendly faces behind the Wilddog sales team — and affectionately known as "the guy with the radio voice!"

With his unmistakable voice and passion for 4x4s, Braam is always ready to help customers find the right Wilddog products for their next adventure.

We asked Braam a few fun questions to get to know the man behind the voice:

What is your favourite Wilddog product?
"Dakar Hunter."

Your favorite/recommended suspension and why?

"ToughDog and Formula. It just depends on what weight the client has on it and what their need is. Formula will be my first option because it's a comfortable suspension and your warranty is better than the others."

Clean bakkie or covered in mud?

"Clean — depending on the circumstances."

One thing every 4x4 owner should have on their bakkie?

"Rear bumper and spotlights."

RIG OF THE MONTH: JAMEEL RAKIM | WILDOG BRAND AMBASSADOR

This month, we're putting the spotlight firmly on Jameel Rakim and his seriously impressive Wildog-equipped rig.

Jameel has built more than just a good-looking 4x4. His setup is purposeful, capable, and ready to get stuck into the terrain. From front to back, every addition brings together the right balance of protection, functionality, and attitude.

JAMEEL'S WILDOG RIG:

HUNTER FRONT REPLACEMENT BUMPER

Bold, rugged, and built to handle the front-end duties when the going gets tough.

ALPHA REAR REPLACEMENT BUMPER

Serious rear-end protection with the functionality to match.

STANDARD ROCK SLIDERS

Keeping the sides protected when the trail gets tight, rocky, and unpredictable.

BASH PLATE

Extra protection underneath, helping keep vital components shielded when the terrain gets rough.

Jameel is a great example of what the Wildog Pack is all about — getting out there, taking on the challenge and making the most of every kilometre.

Jameel, this one is yours.
